

# When Mom is On The Phone

For more teaching resources, visit

<http://www.PositivelyAutism.com/>

Sometimes, my mom needs to talk on  
the phone.

When my mom is talking on the phone, she is having an important conversation with another person.

For mom to hear the person talking on the phone, it is important for me to be quiet while she is on the phone.

When my mom is on the phone, some ways I can be quiet are using a whisper voice, playing with my toys quietly, or reading books.

I will try to be quiet while my mom is on the phone. This will help mom finish her phone call and make her feel happy.

Mom might tell me, “Thank you for being quiet while I talk on the phone!”  
Then, we can go read books or play games. We will have fun.

I am learning to be quiet while my  
mom is on the phone.

# The End
